

Located in one of the oldest cities of the world, SARA is an educational institute where science and spirituality are in harmony. It was founded by Dr. Raj Singh, a true visionary and academician, in the year 2001 to impart Global education with Indian values. And the city of Holy Ganges, Varanasi, provided the perfect setting for this mission. Taking motivation from the traditional Gurukul system, SARA offers boarding facilities to outstation as well as local children. This is done keeping the goal of holistic education in mind. There is an assortment of children hailing from varied regions, primarily from the heartlands of UP and Bihar, who learn to live together, echoing the Indian spirit of Unity in Diversity.

The residential teachers perform the process of teaching and learning beyond the walled classrooms. The campus of SARA facilitates this, as it is situated away from the hustle and bustle of city life, cradled in the lush greenery of Holapur village. Nature and nurture go hand in hand; the campus ambience is conducive for teaching children the necessity of preserving our ecosystem.
